
K 1 0 0 0

Features

- 1,250 GPH @ 1'
- 11' shut-off head
- 3/4" solids handling ability
- 240 Watts
- 1-1/4" FNPT horizontal discharge
- Includes 1-1/2" FNPT x 1-1/4" MNPT elbow
- Light Weight — Only 8 lbs.

Construction

- Motor Housing Material — Polypropylene
- Impeller Material — Nylon
- Impeller Type — Vortex
- 16' Power Cord — SJTW Type
- Shaft Seal — Nitrile
- Hardware — SSTL
- Shaft Material — Ceramic coating 316 SSTL
- Motor Cylinder — 304 SSTL

From the company with the most complete line of pumps in the water gardening industry, Little Giant® is pleased to announce its latest addition of pumps designed specifically for water garden applications.

The new WaterMark™ line of “K Series” pumps features a submersible-only design with the ability to handle solids. Built to handle the needs and tough demands of the professional contractor, the pump has a very efficient oil-less motor protected by a 304 stainless steel cylinder, then housed in a light weight but durable plastic body. The K Series pumps are sure to please the avid water gardening professional and enthusiast.
