

Water Filtration and UV Clarifiers

**WITH
STAINLESS STEEL
INSERTS!**

GreenFree® UV Clarifiers

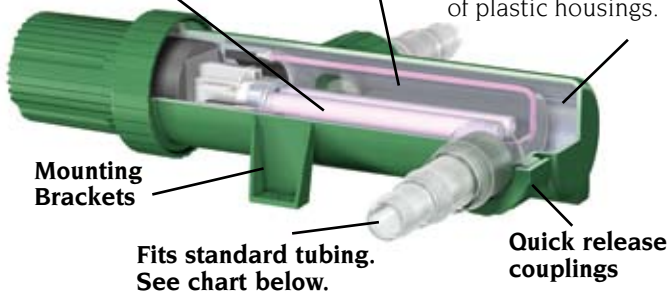

**3 Year
Limited Warranty**

Components

UV Bulb (made by Phillips)
Provides 11 months
of continuous
operation.

**High clarity
quartz tube**

Stainless steel insert
Reflective surface
increases UV
exposure. Prevents
internal degradation
of plastic housings.

**Mounting
Brackets**

**Fits standard tubing.
See chart below.**

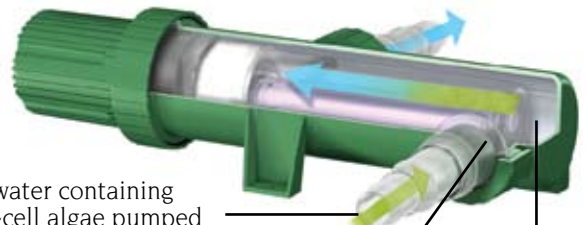

**Quick release
couplings**

EPA Est. #71331-NLD-001

How it Works

Removes heavy algae
blooms usually within
8 days and
keeps water
clear and
green-free.

Single-cell algae dies, clumps,
and is removed by filtration.

Pond water containing
single-cell algae pumped
into clarifier.

Ultra-violet
light destroys
single-cell
algae's ability
to reproduce.

Reflective
stainless
steel surface
increases UV
exposure.

• **5 Watt UV**

• **18 Watt UV**

• **9 Watt UV**

• **36 Watt UV**

15 ft. cords

120 VAC

60 Hz

TetraPond® UV Clarifier Selection Guide

Model	maximum flow	pond size	fittings for tubing ID	recommended pump size
5 watt UV Item #16795	330 gph	660 gal	3/4", 1" 1 1/4"	DynaMag 250 or DynaMag 500
9 watt UV Item #16788	900 gph	1800 gal	3/4", 1" 1 1/4"	DynaMag 750 or DynaTec 1000
18 watt UV Item #16789	2200 gph	4400 gal	1", 1 1/4" 1 1/2"	DynaTec 1500 or DynaTec 2000
36 watt UV Item #16790	4400 gph	8800 gal	1", 1 1/4" 1 1/2"	DynaTec 2000 DHP3600 DHP4200

Replacement UV Bulbs

- Made by Phillips
- High efficiency ultra-violet bulbs with 8,000 hour life. Replace after 11 months of continuous operation.
